NOTES TO FINANCIAL STATEMENTS March 31, 2004

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Township of Coldwater, Isabella County, Michigan, conform to generally accepted accounting principles as applicable to governmental units.

Reporting Entity

In accordance with the provisions of the Governmental Accounting Standards Board's Statement No. 14 "The Financial Reporting Entity," the general purpose financial statements of the Township contain all the Township funds and account groups that are controlled by or dependent on the Township's executive or legislative branches.

The reporting entity is the Township of Coldwater. The Township is governed by an elected Township Board. As required by generally accepted accounting principles, these financial statements present the Township as the primary government.

Basis of Presentation

The financial activities of the local unit are recorded in separate funds and account groups, categorized and described as follows:

Governmental Fund

General Fund

This fund is used to account for all financial transactions except those required to be accounted for in another fund. The fund includes the general operating expenditures of the local unit. Revenues are derived primarily from property taxes, state and federal distributions, grants, and other intergovernmental revenues.

Fiduciary Fund

Account Group

General Fixed Assets Account Group

NOTES TO FINANCIAL STATEMENTS March 31, 2004

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus/Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present revenues and other financing sources and, expenditures and other financial uses in net current assets.

The modified accrual basis of accounting is followed by the governmental fund types. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual which is both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than principal and interest on long-term debt, are recorded when the related fund liability is incurred, if measurable. Principal and interest on general long-term debt is recognized when due.

Revenues from local sources consist primarily of property taxes. Property taxes and revenues received from the State are recognized when susceptible to accrual. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Property Taxes

Property taxes and other revenue that are both measurable and available for use to finance operations are recorded as revenue when earned.

Properties are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are due on February 14 with the final collection date of February 28 before they are added to the county tax rolls. The Township 2003 tax roll millage was .9493 mills, and the taxable value was \$17,966,334.00.

Fixed Assets

Purchases of fixed assets for all funds are recorded as expenditures in their respective funds at the time of purchase. They are also recorded at cost in the General Fixed Assets Group of Accounts as required by generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS March 31, 2004

Note 1 - Summary of Significant Accounting Policies (continued)

Investments

Receivables

Receivables have been recognized for all significant amounts due to the Township. Allowances for uncollectible accounts have not been provided for in that collection is not considered doubtful and any uncollected amount would be immaterial.

NOTES TO FINANCIAL STATEMENTS March 31, 2004

Note 1 - Summary of Significant Accounting Policies (continued)

The purpose of this communication is to provide you with additional information regarding the scope and results of our audit that may assist you with your oversight responsibilities of the financial reporting process for which management is responsible.

AUDITOR'S RESPONSIBILITY UNDER AUDITING STANDARDS GENERALLY ACCEPTED IN THE UNITED STATES

We conducted our audit of the financial statements of the Township of Coldwater in accordance with auditing standards generally accepted in the United States. The following paragraph explains our responsibilities under those standards.

Management has the responsibility for adopting sound accounting policies, for maintaining an adequate and effective system of accounts, for the safeguarding of assets, and for devising an internal control structure that will, among other things, help assure the proper recording of transactions. The transactions that should be reflected in the accounts and in the financial statements are matters within the direct knowledge and control of management. Our knowledge of such transactions is limited to that acquired through our audit. Accordingly, the fairness of representations made through the financial statements is an implicit and integral part of management's accounts and records. However, our responsibility for the financial statements is confined to the expression of an opinion on them. The financial statements remain the responsibility of management.

The concept of materiality is inherent in the work of an independent auditor. An auditor places greater emphasis on those items that have, on a relative basis, more importance to the financial statements and greater possibilities of material error than those items of lesser importance or those in which the possibility of material error is remote.

To the Township Board Township of Coldwater Isabella County, Michigan

For this purpose, materiality has been defined as "the magnitude of an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would have been changed or influenced by the omission or misstatement."

An independent auditor's objective in an audit is to obtain sufficient competent evidential matter to provide a reasonable basis for forming an opinion on the financial statements. In doing so, the auditor must work within economic limits; the opinion, to be economically useful, must be formed within a reasonable length of time and at reasonable cost. That is why an auditor's work is based on selected tests rather than an attempt to verify all transactions. Since evidence is examined on a test basis only, an audit provides only reasonable assurance, rather than absolute assurance, that financial statements are free of material misstatement. Thus, there is a risk that audited financial statements may contain undiscovered material errors or fraud. The existence of that risk is implicit in the phrase in the audit report, "in our opinion."

In the audit process, we gain an understanding of the internal control structure of an entity for the purpose of assisting in determining the nature, timing, and extent of audit testing. Our understanding is obtained by inquiry of management, testing transactions, and observation and review of documents and records. The amount of work done is not sufficient to provide a basis for an opinion on the adequacy of the internal control structure.

SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are described in Note 1 to the financial statements.

OTHER COMMUNICATIONS

Auditing standards call for us to inform you of other significant issues such as, but not limited to, 1) Accounting estimates that are particularly sensitive because of their significance to the financial statements or because of the possibility that future events affecting them may differ markedly from management's current judgments; 2) Significant audit adjustments that may not have been detected except through the auditing procedures we performed; 3) Disagreements with management regarding the scope of the audit or application of accounting principles; 4) Consultation with other accountants; 5) Major issues discussed with management prior to retention; and 6) Difficulties encountered in performing the audit.

We have no significant issues, regarding these matters, to report to you at this time. Audit adjustments were minimal, and are available to review.

GASB 34 IMPLEMENTATION

The Governmental Accounting Standards Board issued a new reporting model for governmental units which is to be implemented over the next few years. The implementation date of this pronouncement for the Township of Coldwater will begin with the year ended March 31, 2004, and will need to be implemented fully by March 31, 2005. The daily operations and recording transactions should not change significantly, however, the Township will be required to maintain additional records for the year end adjustments to the final presentation format.

COMMENTS AND RECOMMENDATION REGARDING INTERNAL CONTROLS/ COMPLIANCE/

Our procedures disclosed the following conditions that we would like to bring to your attention:

SEGREGATION OF DUTIES

A separation of duties between persons who authorize transactions and persons who have control over the related assets does not always exist.

The least desirable accounting system is one in which an employee is responsible for executing the transaction and then recording the transaction from its origin to its ultimate posting in the General Ledger. This increases the likelihood that intentional or unintentional errors will go undetected. In most cases, adequate segregation of duties substantially increases control over errors without duplication of effort.

We understand that due to the size of needed staff, a proper segregation of duties may be impractical and the "cost to benefit" relationship may not justify the addition of accounting staff to accomplish the desired segregation.

These conditions were considered in determining the nature, timing and extent of the audit tests to be applied in our audit of the Township's financial statements and this communication of these matters does not affect our report on the Township's financial statements, dated March 31, 2004.

We welcome any questions you may have regarding the foregoing comments and we would be happy to discuss any of these or other questions that you might have at your convenience.
